paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 387 Publisher: Science Pub. Date :2009-01-01 first edition this book from the status quo of China's sewage treatment and water eutrophication problem. this paper proposes to strengthen the current municipal wastewater treatment plant widely used in biological nitrogen removal in addition to A2O synchronization Phosphorus management and operation optimization process of scientific necessity and importance. First. the system introduced A2O Process characteristics. influencing factors. applications and problems. Analysis of biological nutrient removal by new theories and new technology. offered to develop a new biological nutrient removal technology A2O ideas. Second. the details A2O Process optimization of system performance and operation of research results; A2O process of mathematical models and simulation; A2O sludge process sewage treatment system training and commissioning. operation and management. common troubleshooting. process control. on-line instrumentation . engineering. and cited examples A2O typical engineering process. Finally. given the A2O deformation process and its application. The book has a systematic and comprehensive. innovative. practical and strong features. as a city sewage treatment system operation and management personnel. guide books. but also as a water supply and drainage engineering and environmental engineering research. design personnel and institutions related to teacher professional health reference books.
