Brand New Book ***** Print on Demand *****.JOHN LENNON S LAST MOMENTS The title piece in this 10-story book tackles the question of whether former Beatle John Lennon died a swift death in seconds when he was shot in 1980, or an appallingly slow death over several excruciating minutes. Urban legend has it that Lennon was actually able to speak within minutes after being shot. But through many interviews with police officers and doctors, and a thorough look at various reports, author Jim O Donnell dislodges this urban legend about a legend. Although some of the details about Lennon s death are graphic, they serve to show that Lennon most likely died a fast death, not a slow, tormented one. For example, there were two officers first on the scene where Lennon was shot. One of them told O Donnell: His [Lennon s] face was right into the floor, actually, face down. He wasn t turned left or right. His arms were spread out in front of his head, almost like you were taking a dive. He was actually turning white at that point. The remaining pieces in the book present the stories of nine other deceased people from the world of rock, including six rock stars, a DJ, a TV host, and a writer. CONTENTS 1.
