Foundations of Metacognition

By Michael J. Beran, Johannes Brandl, Josef Perner, Joëlle Proust

Oxford University Press. Hardback. Book Condition: new. BRAND NEW PRINT ON DEMAND., Foundations of Metacognition, Michael J. Beran, Johannes Brandl, Josef Perner, Joëlle Proust, Metacognition refers to the awareness an individual has of their own mental processes (also referred to as 'thinking about thinking'). In the past thirty years metacognition research has become a rapidly growing field of interdisciplinary research within the cognitive sciences. Just recently, there have been major changes in this field, stimulated by the controversial issues of metacognition in nonhuman animals and in early infancy. Consequently the question what defines a metacognitive process has become a matter of debate: how should one distinguish between simple minds that are not yet capable of any metacognitive processing, and minds with a more advanced architecture that exhibit such a capacity? Do nonhuman animals process the ability to monitor their own mental actions? If metacognition is unique to humans, then at what stage in development does it occur, and how can we distinguish between cognitive and metacognitive processes? The Foundations of Metacognition brings together leading cognitive scientists to consider these questions. It explores them from three different perspectives: from an evolutionary point of view the authors ask whether there is...
