Reviews

This is actually the greatest publication i have go through right up until now. I really could comprehended every little thing using this composed e book. I realized this book from my i and dad advised this ebook to learn.

(Jimmie Schmidt I)

THE POLITICS OF CLIMATE CHANGE

Polity, 2011. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: "Remarkable for its range and scope. Concise, yet comprehensive, it examines the climate problem from a variety of standpoints; historical, scientific, financial and geo-political. Always calm and reasonable in tone, Giddens resists the urge to scapegoat and condemn the most offending countries and industries." Irish Examiner "This timely updated reissue of Anthony Giddens' ground breaking book reminds us that the problems he discusses have not gone away." Diplomat Acclaim for the first edition: "One of those rare seminal works that will likely influence policy-makers over the next several generations." Journal of World Energy Law and Business "Giddens' is a simple message, argued with great clarity and power, that brings a new dimension to the debate." Book of the week in the Times Higher Education "A very useful introduction to the issues, and crucially shifts the focus away from targets and environmentalist frames towards the substance of economic and energy security interests, technology, state intervention and the limitations of the formal international climate negotiations." Public Policy Research "As well as providing a useful summary of a number of current debates in climate change policy - from the robustness of carbon markets and green taxes through to the role of government in fostering new technological solutions - Giddens makes a powerful contribution to the emerging debate." Progress " The Politics of Climate Change stands out in the crowded terrain of climate change publications by placing politics - rather than science or economics - at the center of the analysis . there is much to recommend this book. It is up to date, with discussions of the recent global financial crisis and the change of leadership in the US. It takes a multilevel governance perspective on climate...
